

Office Attendance & Salary Management System

Complete Non-Technical User Manual for Staff & Administrators

Application: **Web & Mobile Cloud Edition** | Version: **2.0 Production**

1. System Overview & Access Roles

This system is a paperless, cloud-based office management solution accessible from any smartphone, tablet, or desktop browser. It operates through two simple views:

Employee Portal (Staff View)

Accessed via personal link. Enables employees to clock in/out with GPS location, log daily tasks, report expenses, upload official documents, and chat with management.

Admin Portal (Management View)

Accessed via secure passcode. Allows managers to view real-time headcount, monitor staff presence, generate monthly PDF summaries, and calculate net salaries automatically.

2. Employee Guide — Step-by-Step Usage

1 Accessing Your Personal Portal

- Open your unique personal link on your mobile or desktop browser (e.g., sent by HR/Admin).
- Enter your **4-Digit PIN** (default PIN is 1234) and tap "**Unlock Registry**".
- *Tip:* Tap "**Change PIN**" at the top right anytime to set your own confidential 4-digit code.

2 Daily Morning Clock-In (Starting Work)

- Turn **ON** your device's **Location / GPS**.
- Tap the green "**Clock In**" button. The app records your start time and location automatically.
- A live working timer will appear showing how long you have been on shift today.

📍 **Why Location is Needed:** Location tagging confirms on-site presence accurately without requiring physical fingerprint biometric machines.

3 Daily Evening Clock-Out (Ending Work)

- When your workday is complete, tap the red "**Clock Out**" button.
- Fill out the quick submission window:
 1. **Work Done Notes:** Write a brief summary of tasks and deliverables completed today.
 2. **Expenses / Money Spent (PKR):** If you purchased office materials, fuel, or supplies, enter the amount here. *(This will be deducted from your monthly salary payout automatically).*
 3. **Payment Received:** Record any advance money or client payment collected (if applicable).
 4. **Attach Photo Proof:** Optional button to snap a photo of receipts or project work.
- Tap "**Submit Clock Out**" to finish.

🌟 **Automatic Shift Completion:** If you ever forget to clock out in the evening, the system automatically closes your shift at 23:59:59 and marks you **PRESENT** for that day so you never lose attendance!

4 Daily Work & Material Tracking

- Switch to the "**Daily Work Record**" tab to log ongoing task progress, record issued materials, and track pending balance amounts.

5 Submitting Documents & Leave Requests

- Under "**Form Submissions**", you can send official requests:
 - **Leave Application:** Select leave dates and provide the reason.
 - **CNIC / Identity:** Upload front and back photos for HR records.
 - **Resume / Documents:** Upload certificates or relevant documents.

6 Chat & Instant Notifications

- Tap "**Chat / Comments**" to message management directly.
- Allow browser notification permissions to receive instant push alerts on your phone whenever the Admin sends you a reply.

3. Admin Portal — Management & HR Guide

1 Accessing Admin Mode

- Click **"Admin Portal"** on the top-right corner of the application.
- Enter the Admin Passcode (Default: 1234) and click **"Unlock Admin"**.

2 Real-Time Headcount Dashboard

The overview dashboard provides instant, accurate headcount statistics:

Dashboard Metric	What It Means	Calculation Method
Total Staff	Total active employees registered in the company roster.	Active roster count
Currently In	Employees currently on duty with an open, active clock-in right now.	Today's clock-ins with no clock-out
Present Today	Total distinct staff members who clocked in today (including completed shifts).	Unique staff present today
Absent Today	Employees who have not clocked in at all today.	Total Staff – Present Today

Below the cards, the **Daily Attendance Logs** table lists arrival times, GPS map pins, and attached work photos with an instant **"Export CSV"** button.

3 Staff Roster & Access Links

- **Add Employee:** Enter Full Name and Role/Designation, then click **"Add Staff Member"**.
- **Copy Personal Link:** Click **"Copy Link"** and send the URL to the employee via WhatsApp or Email.
-  **New Link:** If an employee gets a new device, click "New Link" to regenerate a fresh link while preserving all past attendance history.
- **Live Status Indicators:** Displays ● Clocked In , ● Clocked Out , or ○ Not Checked In .

4 Monthly Summary & PDF Reports

- Select the target month (e.g. 2026-08) and click **"Load Monthly Summary"**.
- The system automatically computes:
 - **Total Present Days & Sunday Attendance.**
 - **Absent Days & Leave Days.**
 - **Total Working Hours & Total Clock-Out Expenses.**
- Click **"Export Summary PDF"** to download a formatted, signature-ready Monthly Attendance Report.

5 Auto Salary Sheet Generator (💰)

The Salary Sheet tab automatically computes net payable salaries with automatic expense deductions:

 **Office Standard Salary Calculation Formula:**

1. **Per Day Salary** = **Basic Salary** ÷ 30
2. **Regular Earned** = **Per Day Salary** × **Regular Weekday Present Days**
3. **Sunday Bonus** = **Per Day Salary** × **Sunday Days Worked**

4. **Total Earned = Regular Earned + Sunday Bonus**

5. **Net Salary = Total Earned - Total Clock-Out Expenses**

- **Entering Basic Salary:** Type the basic salary into the input box for any staff member. The row recalculates **live in real-time** as you type. Click "**Save**" to store it.
- **One-Click Batch Calculation:** Click "**⚡ Generate All Salaries**" to sync all staff attendance and clock-out expense deductions in one click.
- **Print / PDF Payroll:** Click "**🖨️ Print / PDF**" to export clean, official salary slips ready for disbursement.

6 Additional Tools

- **Work Records:** Filter by employee and month to inspect daily work logs and materials.
- **Form Submissions:** View uploaded CNICs and approve/reject leave requests.
- **Office Settings:** Customize your **Office Name** and update the **Admin Passcode**.

4. Frequently Asked Questions (FAQ)

Situation	Resolution
Location permission blocked during Clock-In	Turn ON Location/GPS in device settings and allow the browser location prompt. Refresh the page to clock in.
Employee forgot to clock out yesterday	The app auto-closes the previous day's shift at midnight, records them as PRESENT , and lets them clock in fresh today.
How are employee expenses deducted?	Any expense recorded during clock-out is automatically summed for the month and subtracted from Total Earned Salary.
Employee lost their private link	Open Admin Portal → Staff Roster and click " Copy Link " or " 🔄 New Link ".
